

Glow writing

1. Type your text, change font & size as desired.
2. Highlight text, go to “format” → “text outline” → choose a white outline, change weight (width) of your outline if desired.
3. In the same “format” menu, go to “text effects” → “glow” → “glow options”. Chose the color and size of your glow outline, and set the “transparency” to 0% for a bold color.
